*Self-taught with a passion
for creating beautiful
things*

Product Design & Development

- Highly proactive, efficient worker, fast learner and great team player.
- Natural eye for enhancing user experience and interface design.
- Communicate well with business side of the company.
- Born in Belgium. Fluent in French, Dutch and conversational in Spanish.

Technology Proficiencies

Languages/Programming: HTML, CSS, Ruby (and Rails), Python (Pyramid), JavaScript, BackboneJS, UnderscoreJS, jQuery, AngularJS and PHP.

TDD: Rspec, Cucumber, CircleCI

Related Skills: Photoshop, Illustrator

Professional Experience

Clusterflunk, Inc. | Chicago, IL

Product/Design Lead (Oct. 2014 – Present)

Started off as full stack developer, but after re-designing CF, took on role of lead designer. Led design decisions for Pi App, a mobile & web app for education.

Was responsible for designing much of our marketing materials including a demo video*, business cards, conference booth materials, and more.

Built our internal admin panel for stat collection and progress charts mimicking our production stack to learn Pyramid and BackboneJS, then continued to develop for the production application.

Professional Experience

(continued)

8to18 Media, Inc. | Oakbrook Terrace, IL

Lead Product Designer (*Sep. 2013 – Sep. 2014*)

Integrated multiple legacy systems into new internal management solution in addition to designing 2 new products in my 3 years there.

- Conducted market research as tech representative for trade shows across the country
- Performed training sessions and online demos of our software for customers
- Print, marketing and email template design
- Presentation branding, design and content planning for investor slide deck

Full Stack Development (*Sep. 2011 – Sep. 2014*)

Created our “automated on boarding application” for new customer acquisition that turned a weeklong phone & fax process to a 15-minute online form collection experience.

Freelance Work (*Jul. 2008 – Present*)

Designed and developed fully functioning websites since I started programming, with a selection of my work available at: www.alexstomp.com

8th Light Resident Apprenticeship

Learned Ruby, TDD and Rails in an Agile Environment, and served as Project Manager for 8to18, who hired 8th Light as a dev agency for 5 months.

Volunteerism

Belgium (*Summers 2009, 2010, 2011*)

Volunteered as counselor for youth summer camps, and edited and published a DVD for Belgian Red Cross.
